

Reviews for "The Welfare State Crisis and the Transformation of Social Service Work" by Michael B. Fabricant, Steve Burghardt (1992)

"Fabricant and Burghardt have made a major and novel contribution to the literature. This is an important book which addresses a neglected topic of significance for the study of social policy."
-- *Journal of Sociology and Welfare*

"A practical and accessible book that reflects the many complex issues in social services. ... The authors constructively and responsibly offer concrete suggestions for change. ... Much to offer service workers who want to make meaningful and long-term changes." -- *Journal of Progressive Human Services*

"A timely book which addresses significant issues for the field of social welfare and, by implication, social work education as well. ... Has considerable utility as a supplemental text in courses on social welfare policy, the history and philosophy of social welfare." -- *Journal of Teaching in Social Work*

"The authors explore the interplay between the implementation of cost-containment policies and the changing structure and content of social service practice, within the larger dynamics of the political economy." -- *Reference & Research Book News*
